

## Summer Village of Grandview Awarded Municipal Excellence Award for Environmental Stewardship

The Summer Village of Grandview has been awarded a Municipal Excellence Award for the leadership role it has played in environmental stewardship at Pigeon Lake. These awards are given to municipalities selected by Alberta Municipal Affairs for excellence shown in initiatives undertaken within their jurisdictions. Our Summer Village received the award in the smaller-communities category.

Accepting the award from Hon. Deron Bilous, Minister of Municipal Affairs, on behalf of all the residents of Grandview are Mayor Don Davidson and Assistant CAO Gail Coleman.

The Summer Village Council appreciates the efforts made by the residents in recognizing the importance of watershed stewardship and implementing the recommended practices on their properties to help protect our lake.
